SRUTHY DENNY

Frontend Developer

Alappuzha, Kerala, India | (+91) 90488 94445 | info.sruthydenny@gmail.com | https://github.com/sruthy-denny

PROFESSIONAL SUMMARY

Frontend developer building responsive, user-friendly web applications with Vue.js, JavaScript, HTML, and CSS. Currently a Frontend Developer Intern, with Vue.js projects deployed on GitHub Pages and a personal portfolio site. Brings 4 years of prior professional experience in operations, with a strong debugging mindset from root cause analysis, careful attention to detail, and clear communication with cross-functional and global teams.

TECHNICAL SKILLS

Frontend: Vue.js • JavaScript (ES6+) • HTML5 • CSS3 • Vue Router • Vite • Responsive Design

Tools: GitHub • VS Code

Professional: Debugging & Root Cause Analysis • Cross-functional Collaboration • Documentation • Attention to Detail • Time Management

PROJECTS

- **Weather App** (Vue.js, Vite) – search a city to view current weather conditions; deployed on GitHub Pages.
- **Todo App** (Vue.js) – add, complete, and delete tasks with a clean, simple interface; deployed on GitHub Pages.
- **Tic Tac Toe** (Vue.js) – game with two-player mode and a play-against-computer mode.
- **Timer App** (Vue.js) – set a time and watch it count down; deployed on GitHub Pages.
- **Personal Portfolio** (Vue.js, Vue Router) – multi-page responsive portfolio with navigation menu and project showcase.

PROFESSIONAL EXPERIENCE

Frontend Developer Intern **Jun 2026 – Present**

Pratibhatheeram Foundation

- Build responsive web interfaces using Vue.js, HTML, CSS, and JavaScript.
- Collaborate with developers and designers to deliver features from development through deployment, using GitHub for version control.

Process Associate **Dec 2020 – Jul 2023**

Amazon

- Resolved 80+ stakeholder requests per month with high data accuracy while consistently meeting and exceeding quality and productivity targets.
- Performed root cause analysis to identify defects and operational barriers, and proposed process improvements that increased efficiency.
- Documented defects and recommended corrective actions to reduce recurring issues, supporting audit and governance activities.
- Collaborated with global vendor and internal teams to align on process changes and communicate updated requirements.
- Led knowledge-sharing sessions and calls to explain guidelines and build alignment across diverse stakeholders.

Graduate Trainee **Jun 2019 – Sep 2020**

Hindustan Aeronautics Limited (HAL)

- Coordinated with engineering and quality teams on wiring and testing procedures for aerospace projects.
- Inspected loom connector part numbers and ran continuity checks, and prepared inspection schedules used as authoritative references for compliance.

EDUCATION

B.Tech, Electrical & Electronics Engineering **2014 – 2018**

Cochin University of Science & Technology (CUSAT)

LANGUAGES

English (Fluent), Malayalam (Native), Hindi (Fluent), Kannada (Working), Tamil (Working)
